Dear Sir:

Applicant would like to thank the Examiner for the courteous telephonic conference conducted on July 1, 2002. In response to the Advisory Action mailed June 20, 2002, please amend the above-identified patent application as follows:

IN THE CLAIMS:

Please amend Claims 18, 23, 24 and 34 as follows:

18. A method of modifying a flight pattern of a remote controlled aircraft onboard said aircraft, comprising:
reading control signals from a transmitter;
reading positioning signals corresponding to a current attitude of said aircraft from a positioning module;
determining, based on said current attitude, if said control signals will place said aircraft in a flight or pattern outside of a set of defined performance parameters; and
